

Please protect New Jersey's Do Not Call list. Do not weaken it in favor of telemarketing companies. According to the New Jersey's Governor's office and I quote, "2.8 million New Jersey residents have signed up for the Do Not Call program. This represents approximately two of every three residential phone lines in the state." I for one do not want to receive any of these calls. I see it as an unwanted intrusion. Telemarketing calls are unsolicited by me and I DO NOT want to be solicited for anything not of my choosing. I find that telemarketers are rude, they will not take no for any answer and you end up just hanging up on them. I understand in NJ telemarketing companies now have to show their telephone numbers on caller ID units. I have seen some that have a bogus telephone number. For instance all the numbers except the area code are all the same. It might be 7 number 1's etc. If I am in need of some service, etc., I will find what I am looking for by myself. NEVER would I accept anything from a company unsolicited. In closing please respect New Jersey's consumer protection laws. Our legislators made those laws as the people of New Jersey have spoken by signing up for the Do Not Call list. 2.8 million New Jerseyans are NOT wrong. Thank You.
